

# INTERMEDIATE

## Lesson Three

### Finish

For a Swing finish- dog is facing you (in front) - no slack in leash, command/'FIDO, SWING" and then step onto the dog with your left leg. Take leash in both hands, move hands up and to the left. Heel forward 3-4 steps - PRAISING! Halt, showing dog correct sit position. Take shorter number of steps and use voice to straighten sit.

Another way to do a Swing finish - dog is in front facing you - no slack in leash, Command "FIDO, FINISH" and step back on left foot, keeping right foot stationary, move hands back and to the left heeling dog past your left side and have him do a tight circle into you and heel forward 2-3 steps PRAISING. Halt, showing dog correct sit position.

To do an Around finish, again dog is in front - no slack in leash. Take leash in right hand, command "FIDO, HEEL" and step back on right foot keeping left foot stationary, switch lead to left hand behind your back as you step forward and dog comes around you. Heel 3-4 steps PRAISING. Halt, showing dog proper sit position. After dog understands what is wanted, shorten number of steps and continue to use voice to straighten sit.
