

# INTERMEDIATE LESSON TWO

## ABOUT TURN

With dog walking in correct heel position, the instructor will call for an About Turn. When you hear "about turn" you will keep a snug lead, tell your dog to "HUSTLE" and take your left foot and cross your it directly in front of your right foot, forming a "T", the toe of your right foot is facing the middle of your left foot. You then take your right foot and reverse direction, the heel of your right foot will then be against the middle of the left foot. You will then bring the left foot forward briskly completing the turn, PRAISE and keep moving. (See illustration). The correction for the dog is after you turn, as you take your first (1st) normal step. (The correction is a pop with the lead.).
